

Move into the fashion fast lane  
in the new Citroën DS3!

# Style on wheels!

**MORNING RUSH** The life of a star DJ isn't only about parties and VIP treatment! "After gym, I'm usually dashing to meetings all day so I'm in my car a lot," says Lady Lea. "That means I need a car that's comfortable, stylish and safe. The Citroën DS3 is zippy on the road and its five-star Euro NCAP safety rating makes me feel protected at all times."

**W**ith its sophisticated styling, personalised features and sleek interior, the Citroën DS3 is drawing admiring glances from Paris to Pretoria.

Just ask queen of the dance floor – and the road – DJ Lady Lea who needs a flexible car to suit her busy lifestyle. "The new DS3's customisable colours and luxury finishes let me embrace my unique style. And I love its turbo engine!" she raves.

Whether heading to a meeting or the recording studio, Lady Lea relies on the Citroën DS3's ESP brakes and six airbags to get her there safely and fashionably on time. "I often drive at odd hours of the night and I always feel safe and in control in my DS3," she says. And its low carbon emissions make the DS3 eco-friendly – just the trend right now!

And her favourite feature? The Citroën DS3 USB audio input. "I listen to all my new music while I'm driving!"

Text: Sam Taylor; Photography: Steve Keralis; Stylist: Melissa Matted; Hair and makeup: Tamzin Reynolds

**COCKTAIL HOUR** Red lipstick and a sexy LBD transform Lady Lea into a social butterfly for drinks with friends. And the Citroën DS3 needs no touching up to be her perfect companion!

**STUDIO TIME** With an album already out this year, Lady Lea is back in the studio working on her next. With its powerful 1.6ℓ petrol engine, the Citroën DS3 matches her energy and drive to keep her going from one achievement to the next.

10pm

**TURNTABLE TRICKS**  
As one of SA's most in demand DJs, Lady Lea mixes tracks at the hippest venues. And the DS3's floating roof and LED lights look right at home on the club scene!
